

# Moss Vale Station and Stabling Yard Upgrade

## Community notification

July 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering an upgrade to Moss Vale Station and Stabling Yard that will make the station more accessible and accommodate the new Regional Rail fleet.

The project will achieve Disability Standards for Accessible Public Transport 2002 (DSAPT) compliance, providing a station precinct that is accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage, while ensuring it aligns with Moss Vale's transport needs.

### What work are we doing?

This month, we will carry out construction activities at the station and continue work within the stabling yard.

Work includes:

- closing the existing ramp and footbridge between Argyle Street and the station
- installing temporary hoardings in the station forecourt, courtyard and ticket office
- excavation work will begin at the Argyle Street entrance for installation of the new lift
- removing vegetation and strengthening the retaining wall on the station side of Lackey Road
- preparing the Mobile Train Simulator site near the Dalys Way commuter car park

- deliveries and services to the temporary stabling yard will begin and site compound 3 will be set up on Lackey Road opposite Parkes Road.

### When will we be working?

Work will be carried out during standard construction hours, **7am to 6pm Monday to Friday** and **8am to 1pm Saturdays**.

*All work is dependent on weather and site conditions and is subject to change.*

### Changes to station access

The footbridge on Argyle Street will be closed from **Monday 1 July**. Access to the station will be via the footbridge on Lackey Road, or via Dalys Way and the station forecourt.

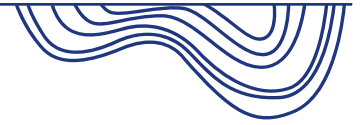

For information on accessing the station during ongoing work, scan the QR code or visit

[transport.nsw.gov.au/mossvale](https://transport.nsw.gov.au/mossvale)

### Location of work area

Work will be spread throughout the station precinct, including Lackey Road, the station and stabling yard areas. All construction areas will have fencing and signage for safety and security.

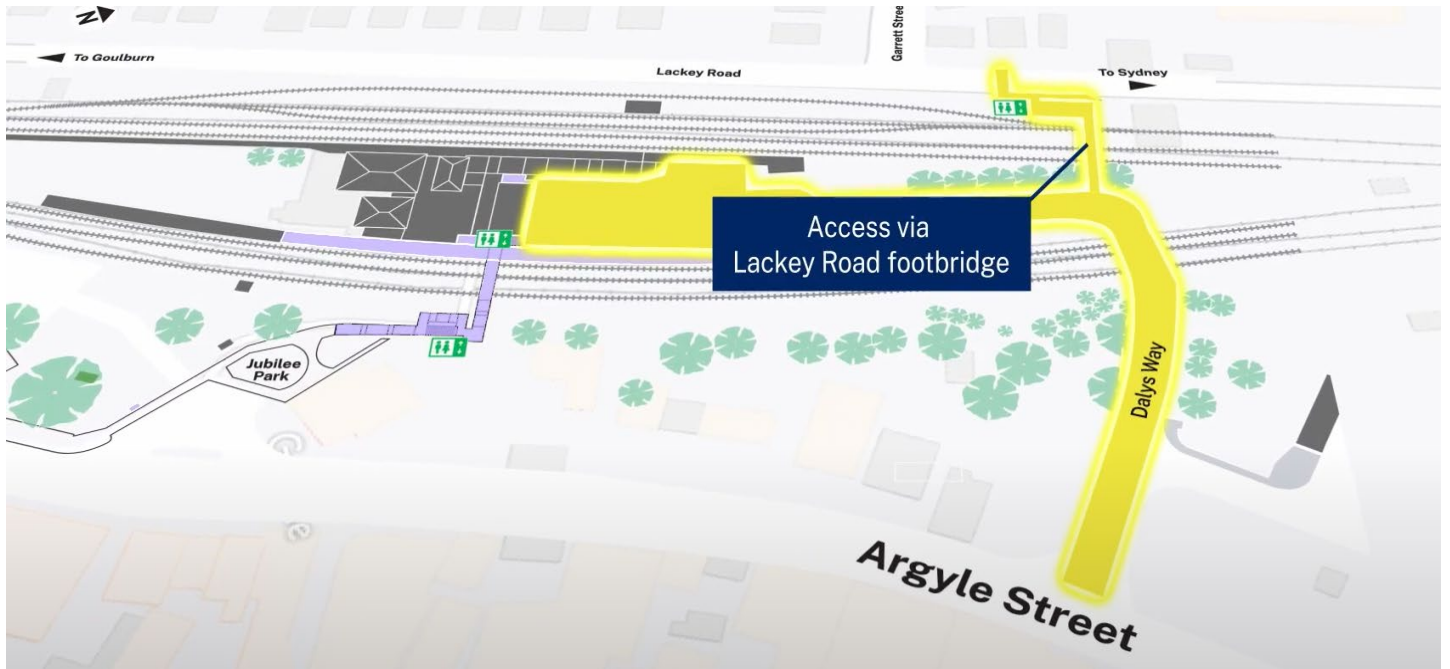

## How will you be impacted?

- access to the station waiting room will be through the rear doors
- a pickup and drop off zone will be available at the station entrance
- parking spaces will be reduced in the forecourt area to allow for safe construction
- three accessible parking spaces will be located to the left of the station entrance

## Traffic impacts

Traffic control will be in place during vegetation removal and strengthening of the retaining wall along Lackey Road to allow for safe construction. A single southbound lane closure will be in place on Lackey Road, with traffic controllers directing traffic from Parkes Road towards Argyle Street. There will be no detours in place.

Access to the station will be via the highlighted areas on Lackey Road footbridge or Dalys Way while the footbridge on Argyle Street is closed (purple section).
